THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE  
OF THE UNITED STATES. WITHIN THE MEANING OF TITLE 18, SECTIONS 793  
AND 794, OF THE U. S. CODE, AS AMENDED, ITS TRANSMISSION OR REVEL-  
ATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON  
IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

1. The aircraft accessory plant, located in the center of Moscow, was designated Object No 117. It covered an area of about 100x100 meters and had three old workshops, about 30x10 meters each, equipped with wood working machines.

2. Soviets said that the installation was a plant supplying Aircraft Engine Plant No 45, [REDACTED]

The plant had a labor force of about 50 who worked eight hours and produced two-bladed propellers of glued plywood, about 75 cm long. The output was not known. \*

\* Comment. No definite conclusions can be drawn from this vague and rather old information. If the installation really is a plant, supplying Zavod No 45, the unusually small propeller diameter of 75 cm, if observed correctly, would indicate that fan brakes for the test stands of Zavod No 45 were produced. The smallest Soviet aircraft engine (I-11) is equipped with a propeller about 130 cm in diameter.
